WASHINGTON NEWSLETTER

By Sen. George Smathers

SPORTS SCOOP — We don't write sports much these days. But, here is an "inside" on the Democratic lineup for their big charity baseball game here June 15th against the Republicans. Congressman Syd Smith is the manager for the Democrats. Most won't play this year—but will "mastermind" the game from the bench. Biggest worry is his pitching staff. For the past two years Congressman William Wheel of Alma, Ga., has done winning job for his team, but in practice recently at Daytona Beach, his performance wasn't up to his usual standard. Also, to add to Syd's troubles is the rumor of a dark horse in the Republican team. So, here's the tip: watch for Syd to start with Congressman Bill Natcher, Bowling Green, Ky., on the mound. Natcher, who has formerly pitched a bit of class "C" ball in the Ohio Industrial League, and might be the "ace in the hole" that Syd needs to put the Republicans in their place.

BIG PARTY — Next Tuesday (June 8) will see one of the fanciest parties thrown in Washington in a long time by anyone from Florida. Congressman and Mrs. Bill Lantaff will give a reception honoring the ambassadors of all the Latin American countries and all high government officials with ties to the United States. Also invited are the 20 members of the Miami Industrial Commission who plan to fly to Washington for the occasion. Lantaff has worked tirelessly on Inter-American problems since he came to Congress and has been active in trying to develop Miami as the gate-way to all countries south of the United States. This reception is more or less a farewell party for those he has worked with in this area. On Wednesday, following the reception, Lantaff and the Miami business men will be entertained at a stag luncheon in the Washington office of the "Diario Las Americas" by Dr. Francisco Aguirre, publisher. The "Diario Las Americas" is a Spanish-English bilingual daily newspaper published in Miami.

DINNER - DANCE - ELECTION — The Washington chapter of the Florida Alumni Association will hold a dinner dance and election of officers all in one evening last week. Scotty Peak, 2063 Olevia St., follows the class of '31 and executive secretary to Senator Smathers, was elected president for the coming year, succeeding Ben McClelland. Blountstown, Frank Weldon, Miami, was named vice-president, and Frank Wideman, West Palm Beach, secretary-treasurer. Leland Hild, executive secretary of the Florida Alumni Association, was here for the party and gave a report on activities at the University.

GOOD TURN — The National Council of Boy Scouts of America met here last week. Doing his "Good Turn Daily," Congressman Bob Sikes, slipped away from his legislative office, Capitol Hill, registered and attended several of the Council sessions as the "Special Representative" of the Gulf Coast Council, which has its headquarters in Pensacola.

FISHIN' BILL — Five members of the Florida Congressional delegation got together and introduced similar bills entitled "Fishermen's Protective Act of 1954." This bill is designed to end the mix-up over where Florida shrimp fleet can operate—at the same time it tells the world that Uncle Sam will come to their aid if they are emulated. Actually, it is designed to give the State Department some ground to stand on when arguing (negotiating) with foreign countries about fishing rights.

NEW STAFFER FOR 'OBSERVER'

Benjamin S. Roberts has joined the staff of GLADES OBSERVER for the summer months. Publisher Allie Okie announced this week.

Roberts, who writes the weekly "Robervations" column on this page, will work in both the news and business departments, Mrs. Okie said.

A resident of Palm Beach, County for 29 years, Roberts is the son of Mr. and Mrs. W. B. Roberts, of West Palm Beach.

He is a graduate of the Georgetown University School of Foreign Service, and served four years with the U.S. Coast Guard in World War II. He is a member of the board of overseers of that school. Roberts is a member of Pahokee Rotary and American Legion Post 90.

Prior to joining the OBSERVER staff, Roberts was office manager of Palm Beach Research Farm, Canal Point, for two and a half years. He previously was manager of Belle Beach, and before that was on the faculty of Graham Eckes School, Palm Beach. He is a member of the board of overseers of that school. Roberts is a member of Pahokee Rotary and American Legion Post 90.

But if you think I won't be doing something besides barking when next moon-up comes, you're wrong. I shall be sitting there, watching for the cow. Because this week, here in our office where Snips of paper are knee-deep, and where I and Lisa furnish the Puppy-Dog Tails, we found Snails.

And Ben Roberts, who is a "little boy" about six and a half feet tall, joined our staff! Snips, Snails, Puppy-Dog Tails—I'll never disbelieve a nursery rhyme again.

The bosses removed the snails, but they're keeping Mr. Roberts now is whence cometh the snails? If anybody here in the Glades has any advice to offer on what snails want in a print shop, I would be happy to hear it.

Will they grow bigger than the size of a dime? Help!

Chant Marine and Fisheries committee has approved the "Red Tide" bill, virtually assuring enactment. This bill, already passed by the Senate, will give fish product import duties collected, a \$3-million fund for bolstering domestic fishing industry.

CAPITOL HILL NEWS CAPSULES: Word to World War II POW's: we have extended to them, in 1954, the deadline for filing claims for compensation due them as result of forced labor or inhumane treatment. Many have written me complaining they had overlooked the law to give them \$1.50 for their period. "Wide War Claims Commission," Washington, D.C. Separate legislation is pending for the veterans. E. H. Long, St. Petersburg, writes me that a sample of "unglue mortar" I secured for him from Taiwan with formula may result in "a new era for tung growers" and he generously assures me I am "on the ball" for the industry. Senator Langer, Chairman of the Judiciary Committee, has assured me of his help with creating a third federal judicial district in Florida by splitting the giant and unwieldy southern district.

LITE TROT OF WEEK: A constituent called me to ask help in selling reducing pills to seniors. I suggested reduction in wordage more than in avoirdupois is needed.

GROWING WITH THE GLADES

Gibbon wrote in several volumes "The Decline and Fall of the Roman Empire" in which he investigated the reasons for the failure of that system to maintain itself. One writer in one line says that Rome fell because she did not conquer the German barbarians but instead raised a wall against them. Over-simplification that this is, it points up the futility of not completing a job but instead temporizing and taking halfway measures.

It is Russia instead of Germany that we have not conquered and instead of building a wall against her in a literal sense we have set up temporary blocks against the day when that nation will overrun us.

The Communists are not in a hurry. Time is not of the essence to their plan for world domination. Achieving it cheaply is better than gaining it expensively.

In 38 years they have overrun a major part of Europe and Asia and have inoculated every nation in the world with the virus that is multiplying each day.

Lenin made his way across Germany at the invitation of the German high command to overthrow the pro-Allied government of Imperial Russia. That he succeeded and that his successor Stalin overcame the Kaiser's successor Hitler is an irony of history. But succeed he did, not only in Russia but from that as a base he sent out a call to communism which was taken up by many persons in many nations because they saw hope in it or because it fascinated them to the exclusion of their allegiance to their native state.

The infection of Communism has even struck home. An announced 25,000 Communists roam our streets and enjoy the liberties which aid them in carrying out their nefarious scheme. But these are traitors in our midst whom we can control.

It is a new problem to have Communists on our doorstep whom we have no means of controlling unilaterally. The fellow-story is one of those twice, thrice told tales. At first Russia controls elections, installs sympathetic officials and then arms them for trouble.

If we take action, Russia will say that we are the imperialist monster of the West bent on conquest. She will hold our conduct up to the Far Eastern countries to whom she is champion as an example of our greed and malice. If we take action it will have to be in accordance with the Caracas and other joint agreements we made with our fellow Western Hemisphere states. This will take time to implement, this will be due process of law whereas we should be in a hurry to get rid of this menace on our front porch.

With the menace so close there is every chance that we will act without reference to the propaganda that Russia will make of that action. It is only by the way that we should quash this danger and ask questions later. This is self defense in its highest form.

THANK YOU!

I Will Not Let You Down!

I am sincerely grateful for the vote, hard work, and the prayers of all of you who made our victory possible. Every power at my command will be used to lead Florida forward. I will make you the kind of governor of whom you can be proud.

I will not let you down!

FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade CHRISTIAN SCIENCE GROUP, Canal Point

The importance of understanding God and man and the standpoint of spiritual causation will be stressed at Christian Science services Sunday.

The Lesson-Sermon "God The Only Cause and Creator" will include the following passage from the King James Version of the Bible:

"For thus saith the Lord that created the heavens; God himself that formed the earth: he made it: he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord, and there is none else" (Isaiah 45: 18).

Among the citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read: "Jesus of Nazareth was the most scientific man that ever trod the globe. He plunged beneath the material surface of things, and found the spiritual cause" (313:22-26).

The Golden Text is from Revelation: "Thou art worthy, O Lord, to receive glory and honor and power: for thou hast created all things, and for thy pleasure they are and were created" (4:11).

The newly elected officers of MYF of Pahokee First Methodist Church will be installed Sunday evening, according to Mrs. B. Elliott, counselor. She has also announced a meeting of the council at her home Sunday afternoon, 5 p.m.

GLADES GIRL RECEIVES CAP AS STUDENT NURSE

NEW ORLEANS — Miss Anna Atkins, daughter of Mr. and Mrs. J. S. Atkins, Pelican Lake, received the cherished cap of a student nurse in the traditional "capping services" of Southern Baptist hospital's Mather School of Nursing on May 28.

Miss Atkins was one of 65 young ladies, including 19 girls

from Florida, who received their caps in the candlelight services. Capping of a student nurse signifies successful completion of the first nine months of the three year student nurse program and is considered by many to be the most significant step in the entire course.

For the past nine months the young ladies have been known as pre-clinical students, since they have not yet had clinical

experience in the hospital. They now advance to the status of freshmen students for three months and will be succeeded by a new class of pre-clinical students who are scheduled to enter training in September, according to Miss Harriet L. Mathers, director of the school. A few vacancies still exist in the September class and young ladies who desire to become professional nurses and who are high

school graduates and single are invited to write Miss Mather at 3700 Napoleon Ave., New Orleans, La., for information on entering the class. A limited number of scholarships are available.

Following the capping exercises a reception was held on the lawn of Farnsworth Hall for the students, relatives and friends.

THE MEDICINE CHEST

Now that spring cleaning is in the minds of most housewives, why not extend this untold necessity to the inventory of the medicine chest? It may not be a medicine chest at all but a catch-all for a number of things from baby pins to a three year old prescription.

Medicine chests should be clean. They should contain above all the necessities for first aid. There should be a clinical thermometer, first aid dressings, a pint of rubbing alcohol and a bottle of aromatic spirits of ammonia for a mild stimulant in case of fainting. There should also be some petroleum or vaseline in case of an accidental burn. A mild laxative is essential should a cathartic be necessary.

There should not be in the medicine chest old medicines and prepared prescriptions. These have served the specific use for which they were intended and should be thrown away. Do not have bottles without identifying labels.

Lies and poisons should never be kept in the medicine chest. Many accidents to children and adults could be prevented if these substances were not so easily accessible.

Self-medication is dangerous beyond the few simple gestures of first aid that can be wisely performed by anyone. Even with first aid, if there is any doubt, always contact a physician. What may be a minor cut, bruise or burn may be serious enough to cause complications.

There are a few items used by members of the family, such as shaving creams, lotions and cosmetics, that are conveniently stored in the medicine chest. It is possible to set aside a shelf or two for these and group medicines and dressings on the other shelves. Each bottle, whether hair lotion or cough syrup, should have its label.

The family physician will be glad to suggest items that should be in the medicine chest. Better still, submit a list of those things you think should be there and then ask his opinion.

Canal Takes 2 More Lives

BELLE GLADE — An accident which claimed the lives of a man and a woman occurred Monday afternoon around 2 o'clock about 1/4 of a mile east of Belle Glade on SR 80, when a 1951 Mercury driven by Warren K. Veasey, 37, of Indianapolis, Miss. side-swiped a 1952 Jeep station wagon driven by Daniel J. Shiver, 27, of South Bay.

A resuscitation from the Belle Glade Fire Department was brought to the scene of the accident by Fireman Floyd Smith, and artificial respiration was administered at the scene by Smith and Carl Dean of Belle Glade. The victims were taken to Belle Glade Memorial Hospital by Wetherington Funeral Home and were pronounced dead upon arrival.

Investigation of the accident was made by PPH Trooper Charles McWilliams and Sgt. E. W. Dwyer, assisted by Lt. Vern Clark and J. J. Congleton of the Belle Glade Police Department. Constable Buford Prescott and Justice of the Peace Joe Cherry. Mrs. Johns is survived by a son, Charles Johns, in Eastman, Ga. and a sister, Lillie May Hill, West Palm Beach. She was employed as a waitress in Newberry's in West Palm Beach. Mr. Veasey is survived by his wife and father of Indianapolis. Miss. Mr. Shiver was uninjured.
